

Create your crowdfunding / blockchain platform !

OUR VISION

THE BEST CHOICE IN THE MARKET

Our vision

Ten years after the financial crisis, we believe that the technology associated with the end of the banking monopoly now gives the opportunity to act and support the real economy by becoming an actor of change.

Our mission

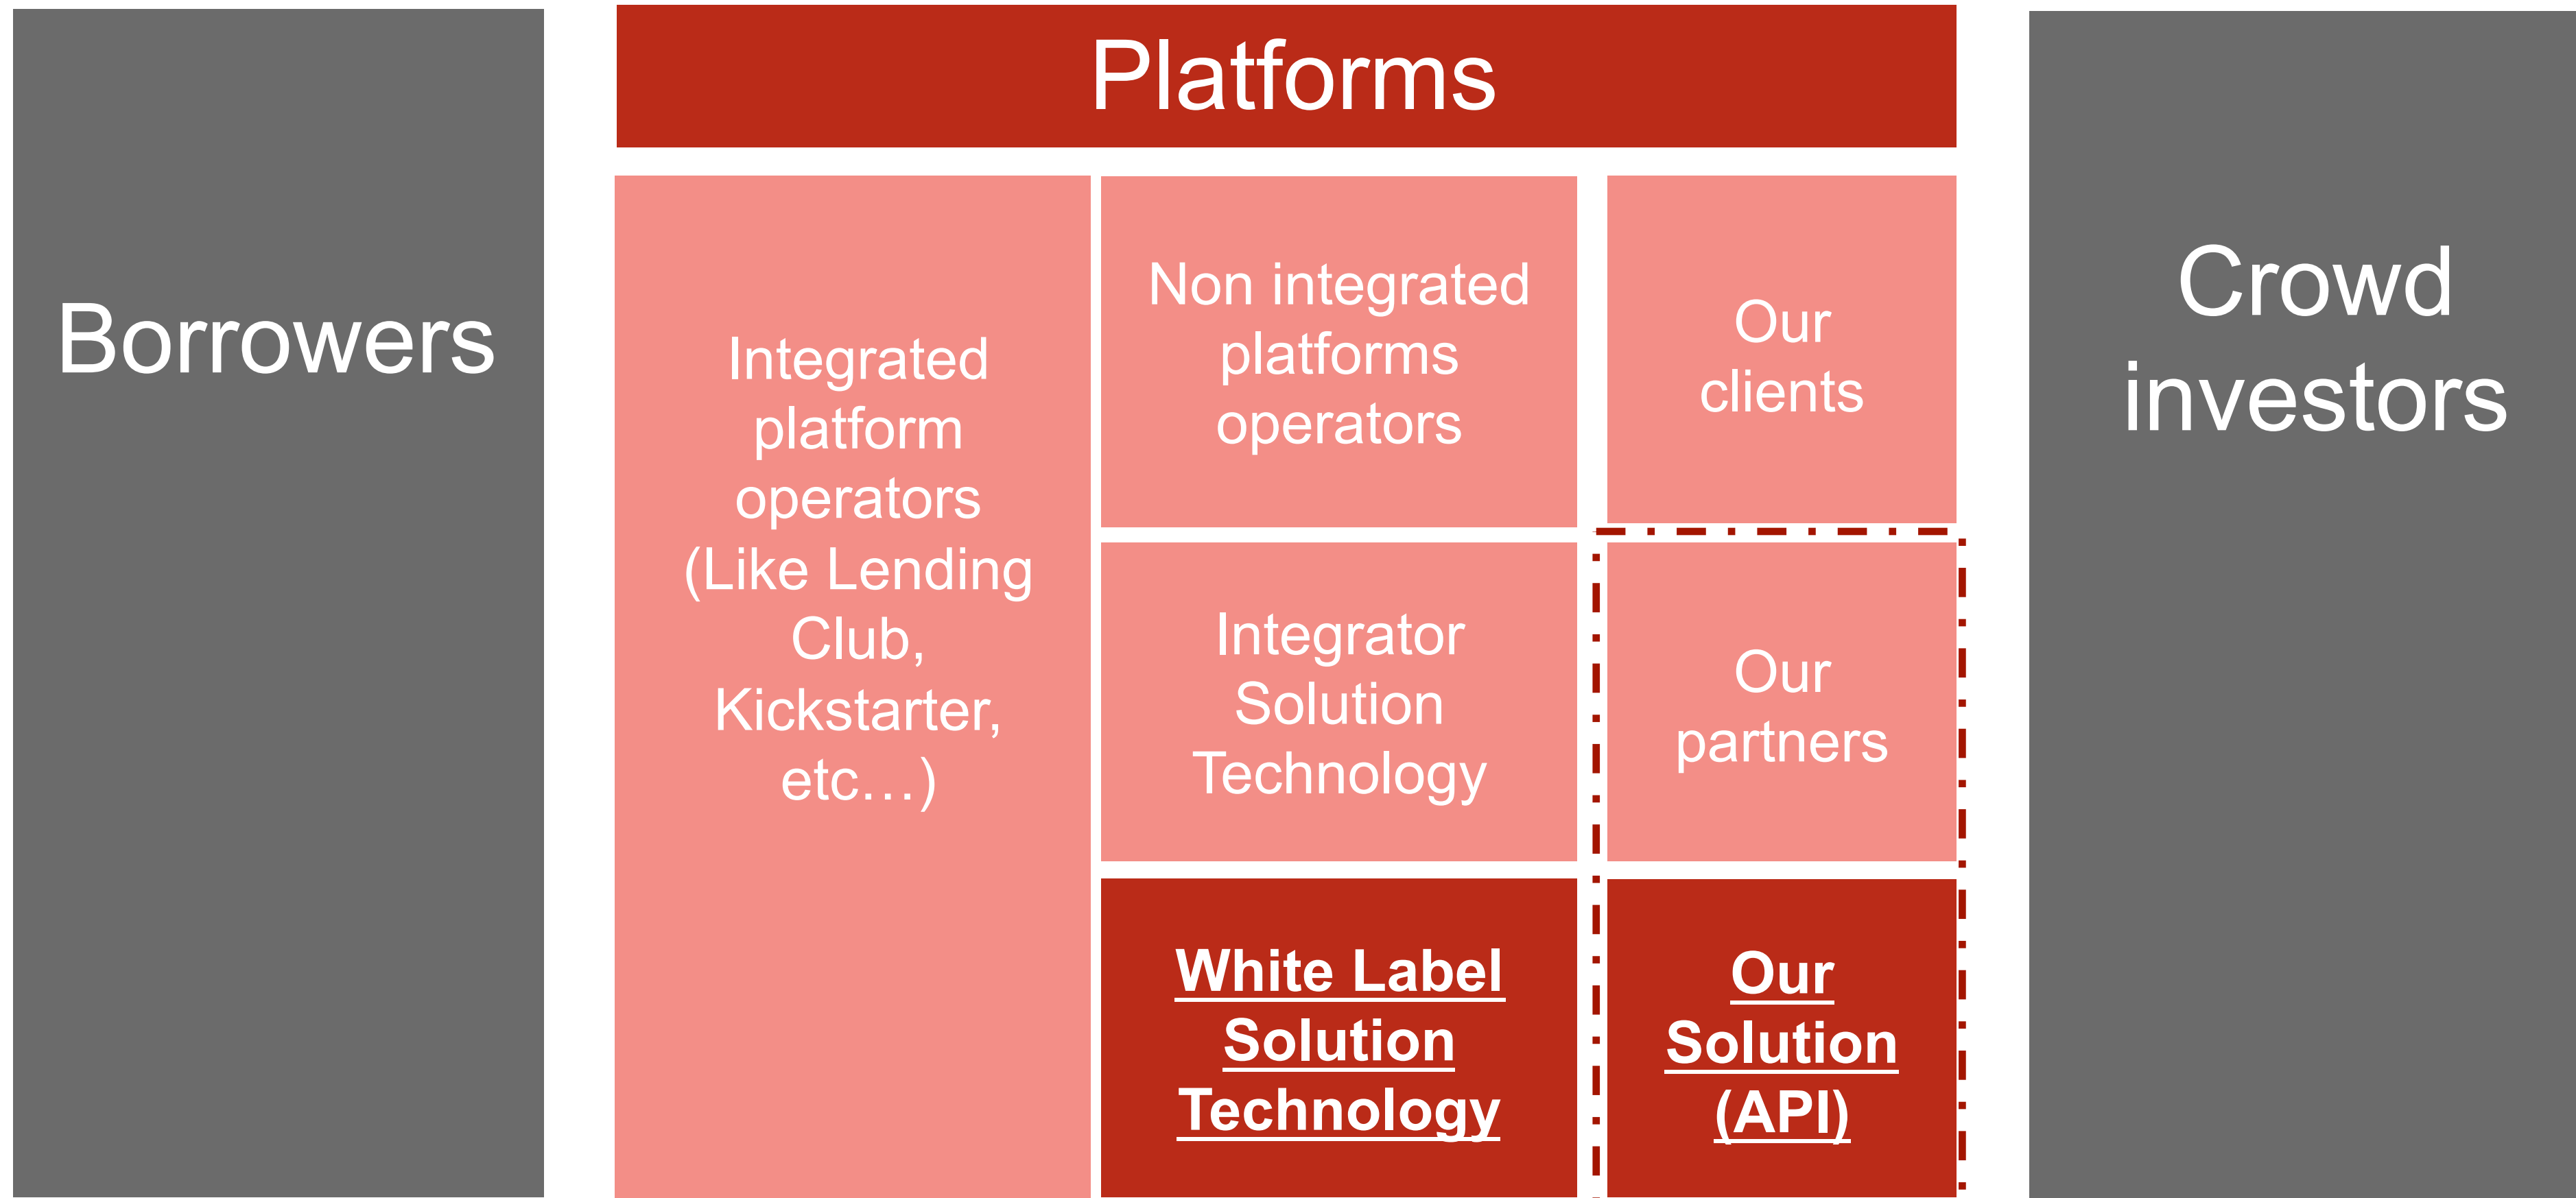

Our aim is to provide as many as possible an ergonomic, secure and transparent API in order to reorganize the financing mode of projects through a new source of sound and reliable financing.

Our values

Our solutions are developed in Switzerland by researchers and entrepreneurs to ensure that all scientific research is put to use the pragmatism required by this new method of financing.

The purpose of WeCan.Fund is to work for the success of every fundraiser and their supporters.

We improve connectivity among market constituents and help entrepreneurs to operate white label platform. Our client benefit from an integrated KYC, an electronic escrow account, Blockchain' features, etc... We offer organizations a complete, turnkey, fully customizable online technology, allowing them to focus on their core business.

The solution to create a digital platform

We provide a wide array of Usable & Flexible Features

 **ANY TYPE OF CROWDFUNDING**

Donations, rewards, loans and Equity are all accepted and managed by the platform.
